PROJECTS

Rescue Finder

Gainesville, FL | Nov 2023 - Dec. 2023

Utilized the Petfinder API to display the most recent dogs placed up for adoption in a user's area. The website features descriptions upon click of each animal which can then be saved onto the users profile for later viewing.

Local Spa Website

Dallas, TX | Oct. 2023 - Dec. 2023

Designed and built a responsive website for a theoretical spa company that allows users to familiarize themselves with the business and its amenities, browse treatment options, read reviews, and schedule upcoming appointments.

WORK EXPERIENCE

Kimley Horn Landscape Architecture Analyst

Dallas, TX | June 2022 - May 2023

Utilized technical software programs to analyze, produce, and QC deliverables for a variety of clients. Designed to regulations, conducted on-site analysis and planning, produced construction document packages complete with demolition, mitigation, grading, hardscape, landscape, technical details, and irrigation plans.

Booth Design Group Landscape Architecture Intern

St. Petersburg, FL | May 2020 - Nov. 2020

Responsibilities included preliminary design conception, site analysis collection via both in office and on site means, creation of hand graphics, conducting site reviews, generating computer drafted plans ranging from landscape and irrigation to subdivision design, courier work, plan reviews, communicating with clients over the phone, email correspondence, and attending meetings.

UF Horticulture Dept. Teaching Assistant

Gainesville, FL | Aug. 2019 - Dec. 2019

Leader of outdoor and indoor lab sessions to educate over 30 students in the identification and utilization of 200 plants in the landscape; administrator and proctor of quizzes and exams; and collaborated with the advisor and other teaching assistants in weekly meetings to formulate assignments.

UF International Student Scholar

Punta Cana, Dominican Republic | Mar. 2018 - May 2019

Conducted field research for 1 month in the Dominican Republic as 1 of 13 students chosen from the College of Design, Construction, and Planning; assisted in creating a surveys, interviewing locals and performing field analysis to determine the suitability of a future installment of a Marine Protected Area on 100 miles of coastline.

UF Warrington College of Business Teaching Assistant

Gainesville, FL | Apr. 2018 - Aug. 2019

Assisted instructing 3 graduate-level business courses; communicating with over 40 students per class and via email; held office hours; scheduled and coordinated guest speakers to visit and lecture on campus; graded assignments, exams and projects; and provided weekly email updates.
